SUMMARY

I'm an aspiring software developer with a good understanding of Core Java, HTML, and CSS. I enjoy building simple, user-friendly applications and continuously learning new things in tech. I'm looking forward to starting my career in the IT industry, where I can apply what I've learned, take on real-world challenges, and grow into a strong contributor on development teams.

EDUCATION

Alagappa Matriculation Higher Secondary School   **2022 -2022**

- SSLC - 74.80%
- HSC - 62.16%

SNS College Of Technology   **2022 -2026**

- B.E/EEE
- CGPA - 7.67 (Upto Sem V)

TECHNICAL SKILLS

Java Core   HTML   CSS

PROJECTS

AI-Enhanced Email Spam Detection System   **Apr 2025**

Developed an automated email spam detection system using the n8n no-code platform.
Integrated AI logic and filters to classify emails based on content and metadata.
Explored workflow automation, email parsing, and basic AI without coding.

Student Mark and Grade Management System   **Jun 2025**

Created a Core Java mini project using IntelliJ IDEA to manage student details and grades.
Calculated total marks and displayed results through a console-based interface.
Applied key Java concepts like loops, arrays, conditionals, and user input handling.

Mini ATM Simulator   **Jul 2025**

Developed a Mini ATM Simulator in Core Java to perform basic banking operations via console.
Features include balance check, deposit, withdrawal, and exit options.Used core Java concepts like switch, if, loops, and the Scanner class.

INTERNSHIP

Cognify Technologies

Completed a Java Development Internship at Cognify Technologies.
Worked on console-based mini projects using Core Java and IntelliJ IDEA.
Gained practical experience in Java programming and version control with GitHub.

CERTIFICATES

- Java programming (Prepinsta)
- Embedded System(NPTEL)
- Quantitative Aptitude(Prepinsta)
